

Plantronics Pulsar™ 590A

Music to your ears.

Travel has never been so entertaining or so productive. This incredible wireless headset switches seamlessly between your Bluetooth enabled mobile phone and your music player.

If nobody is trying to call you, then you can listen to your music, DVD or any other audio device. If a call does come through, you know about it straight away, and can respond at the touch of a button – has there ever been a more relaxing way to work?

With high-fidelity stereo sound this is as good a way to listen to music as any, with the incredible capability of doubling up as a wireless mobile phone headset.

The Pulsar™ 590A includes everything you would expect from the leading innovator in the wireless headset market, to make life simple for you.

A universal adapter turns virtually any audio device into a wireless transmitter so that you can take advantage of Plantronics' wire-free world.

The ergonomically designed and adjustable headset is comfortable to wear and folds for easy storage. Up to 12 hours' talk time and up to 10 hours' audio listening time cover the longest journeys. The controls are simple and intuitive. You can even roam up to 10 metres from your actual Bluetooth phone or audio device.

The Pulsar™ 590A – it's another level of freedom altogether.

Key features

- Single button switching between hi-fi stereo audio and Bluetooth mobile phone
- Use your headset for 10-12 hours without recharging.
- Battery level indicator
- High-fidelity stereo sound
- 3.5mm adapter allows wireless communication between headset and virtually any audio device
- Free cable turns your headset into corded headphones where wireless devices are not permitted (eg in aeroplanes), or if your battery is flat
- Full set of controls on headset mean you can switch between two devices, control volume and skip tracks*, up to 10 metres away from the actual phone and music player
- USB charger included
- Incorporates the latest Bluetooth standard 2.0

* Bluetooth device must support AVRCP

Technical data

Sound Innovation™ for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man..." From the man on the moon to the man on the street, Plantronics is an innovation leader dedicated to creating communication solutions for people who understand and appreciate the real freedom of space. From outer space to inner space, find your space.
